Once Paris wakes up I'll come there if that's what she wants.

Jason is not thinking clearly. He just told me he doesn't think she should know about the baby tonight!

He can't keep this from her

The OR nurse just said if she feels up to it they can discharge her tonight and she can drive up there to be with the baby

Can you please send me pictures of the baby

Paris will want that

so I talked to a nurse, no one can go in helicopter, someone can drive up there. she doesn't think anyone but a parent could be with the baby..

I will try to take a picture

That seems appropriate. When Paris is discharged then everyone can come to the baby and be with her

No one can even fly with baby, I asked :(

Ok thank you
